Evoke360
Ribbon

Unleash the power of real–time data

Whether you're a busy clinic, a private practice, or a large healthcare facility, Ribbon seamlessly integrates into your existing EHR, streamlining your workflows by providing a comprehensive summary and actionable insights right at your fingertips.

The result: Informed and accurate decision-making and enhanced patient care.

Seamless integration into your existing EHR

Continue their workflow without disruption, accessing powerful insights directly within their familiar environment.

Quality care gap identification

Highlight and prioritize quality care gaps to improve patient outcomes and adhere to care standards efficiently.

Instant access to encounters, labs, and pharmacy information

Stay updated with the latest data to provide the best care possible.

Easy identification of condition gaps

Seamlessly add these gaps into your EHR, ensuring everything is addressed and nothing is missed.

Simplified and enhanced referral workflows

Ribbon helps coordinate care and streamline the referral process, saving you valuable time.

## FHIR–enabled system

Built with FHIR (Fast Healthcare Interoperability Resources) standards, Ribbon ensures robust integration with your existing EHR, providing a unified and efficient system.

The power of Evoke360

Evoke360 features an integration hub that connects to multiple data and insight providers, delivering valuable intelligence with minimal configuration. This powerful combination ensures that you receive the most relevant and actionable insights directly through Ribbon.

Evoke360 Ribbon

Why choose Ribbon?

Increased efficiency

Ribbon presents the information you need clearly and concisely, enabling you to focus more on patient care and reducing time spent sifting through medical records.

Enhanced collaboration

With everyone having access to the same real-time data and insights, communication is improves and care coordination is streamlined.

Data–driven decisions

Ribbon's advanced analytics ensure you're always one step ahead, providing the best possible care for your patients.
